INDEPENDENT AUDITORS' REPORT

December 29, 2010

Board of Directors
Goodwill Industries of Northern
Michigan, Inc. and Subsidiary
Traverse City, Michigan

We have audited the accompanying consolidated statements of financial position of *Goodwill Industries of Northern Michigan, Inc. and Subsidiary* ("Goodwill") as of September 30, 2010 and 2009, and the related consolidated statements of activities, functional expenses and cash flows for the years then ended. These consolidated financial statements are the responsibility of Goodwill's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of *Goodwill Industries of Northern Michigan, Inc. and Subsidiary* as of September 30, 2010 and 2009, and their consolidated changes in net assets and their consolidated cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. MISSION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities and Consolidation

The consolidated financial statements of Goodwill Industries of Northern Michigan, Inc. (“GWI”) and G.W. Homeless Services of Northern Michigan, Inc. (“GWH”) are collectively referred to as (“Goodwill”).

Goodwill’s mission is to help people overcome barriers to independence. GWI and GWH are not-for-profit corporations that provide employment, training and vocational opportunities, support services and shelter for the homeless, disabled and otherwise disadvantaged individuals living in northern lower Michigan.

Goodwill serves the region’s communities through:

Retail Operations	Utilizing its four retail stores and E Commerce operations Goodwill provides on-the-job training and employment opportunities. Revenue from the sale of donated clothing and other household goods goes directly toward growing and supporting critical community-based programs and services.
Client Services	Through its programs, Social Security Income and Disability Income Appeals, Food Rescue, Street Outreach, Paperworks Studio and Workers-on-Wheels, Goodwill provides basic needs, housing support, case management, transportation and job placement services.
Recycling	Goodwill’s recycling program models sustainability and stewardship while creating on-the-job training and employment opportunities.
Food Services	Goodwill operates a commercial kitchen to provide meals for the Goodwill Inn homeless shelter and, in conjunction with Northwest Michigan Community Action Agency, Meals-on-Wheels.
Homeless Shelter	Goodwill provides temporary shelter, basic needs, family strengthening and life rebuilding services to homeless individuals and families.

GOODWILL INDUSTRIES OF NORTHERN MICHIGAN, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Goodwill has presented the accompanying financial statements on a consolidated basis in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 958-810-65, *Reporting of Related Entities by Not-for-Profit Organizations*. Upon consolidation, all material inter-entity accounts and transactions are eliminated.

Goodwill is a member of Goodwill Industries International, Inc. (“GII”). Members are required to remit 1% of earned unrestricted revenue to GII. Dues paid to GII totaled \$67,632 and \$55,983 for the years ended September 30, 2010 and 2009, respectively.

Use of Estimates

The preparation of consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the year. Actual results could differ from those estimates. Significant estimates include, but are not limited to, the valuation of donated goods inventory, the carrying value of impaired property, and the fair value of investments and the interest rate swap liability.

Basis of Presentation

Goodwill reports information regarding its consolidated financial position and activities according to three classes of net assets depending on the existence or absence of donor imposed restrictions: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets. Goodwill had no permanently restricted net assets as of September 30, 2010 and 2009.

Cash and Cash Equivalents

Cash and cash equivalents consist of demand deposits and savings accounts held in banks and cash on hand. Goodwill maintains deposit and savings accounts in various financial institutions in Michigan which, at times, may exceed the federally insurance limits. Management believes interest rate or other financial risk associated with these deposits is not significant.

Accounts Receivable

Social security income and disability appeals (“SSDI”) accounts receivable (Note 6) are stated at the amount Goodwill expects to collect from outstanding balances and generally no collateral is required. Goodwill provides for probable uncollectible amounts through a provision for bad debt expense and an adjustment to a valuation allowance based on management’s assessment of the current status of individual accounts. Balances that are still outstanding after reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable. Changes to the valuation allowance have typically not been material to the consolidated financial statements. No valuation allowance has been recorded for other categories of accounts receivable.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Contributions

Contributions received are recorded as increases in unrestricted, temporarily restricted, or permanently restricted net assets, depending on the existence and/or nature of any donor restrictions. All donor-restricted contributions are reported as increases in temporarily or permanently restricted net assets depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified to unrestricted net assets and reported in the consolidated statement of activities as net assets released from restrictions. Restricted contributions whose restrictions are met in the same reporting period are reported as unrestricted contributions.

Donated goods for resale are recorded as contributions at their estimated fair value at the date of donation. This merchandise requires the addition of program-related expenses/processes before it reaches its point of sale. For the years ended September 30, 2010 and 2009, Goodwill recognized contributed merchandise with a fair value of \$2,038,792 and \$1,898,162, respectively, as contributions revenue.

Pledges

Pledges are recognized as revenue when the donor makes a promise to give to Goodwill that is, in substance, unconditional, and collection is reasonably assured.

Inventories

Donated inventory items are recorded at fair value as determined by management using a calculation based on factors such as net sales, inventory turnover and program-related costs incurred for preparing the inventory for sale. This method is suggested and used by the affiliates of GII nationwide and is considered generally accepted by many affiliates of GII.

Other inventory consists of new products purchased for sale in Goodwill retail locations which are recorded at lower of cost or market on a first in first out method.

Investment Securities

Investment securities are reported at their fair values as determined by quoted market prices. Realized gains and losses on sales of investments are determined using the average cost method. Unrealized investment gains and losses are included in the change in unrestricted net assets.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Fair Value Measurements

Fair value refers to the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants in the market in which the reporting entity transacts such a sale or transfer based on the assumptions market participants would use when pricing an asset or liability. Assumptions are developed based on the prioritizing information within a fair value hierarchy that gives the highest priority to quoted price in active markets and the lowest priority to unobservable data, such as the reporting entity's own data. Goodwill may choose to measure eligible items at fair value at specified election dates. The fair value option (i) may be applied instrument by instrument, with certain exceptions, allowing Goodwill to record identical financial assets and liabilities at fair value or by another measurement basis permitted under generally accepted accounting principles, (ii) is irrevocable (unless a new election date occurs), and (iii) is applied only to entire instruments and not to portions of instruments. At September 30, 2010, Goodwill has not elected the fair value option for any financial assets or liabilities.

For assets and liabilities recorded at fair value, it is Goodwill's policy to maximize the use of observable inputs and minimize the use of unobservable inputs when developing fair value measurements for those financial instruments for which there is an active market. In cases where the market for a financial asset or liability is not active, Goodwill includes appropriate risk adjustments that market participants would make for nonperformance and liquidity risks when developing fair value measurements. Fair value measurements for assets and liabilities for which limited or no observable market data exists are, accordingly, based primarily upon estimates often calculated based on the economic and competitive environment, the characteristics of the asset or liability, and other factors. Therefore, the results cannot be determined with precision and may not be realized in an actual sale or immediate settlement of the asset or liability. Additionally, there may be inherent weaknesses in any calculation technique and changes in underlying assumptions used, including discount rates and estimate of future cash flow, which could significantly affect the result of current or future values. For a further discussion of fair value measurement, refer to note 5.

Property and Equipment and Depreciation

Property and equipment are stated at cost or, in cases of donated assets, at estimated fair value on the date of gift, less accumulated depreciation. Land is stated at cost. Major improvements and renewals are capitalized while ordinary maintenance and repairs are expensed. Depreciation is recognized using the straight-line method over the estimated useful lives of the assets, which range from 3 to 40 years.

Management annually reviews these assets to determine whether carrying values have been impaired. Management determined a building owned by Goodwill was impaired and, accordingly, recorded an impairment loss of \$95,763 and \$140,917 during the years ended September 30, 2010 and 2009, respectively.

Revenue Recognition

Retail sales of goods are generally recognized when customers take possession of the merchandise, usually at the point of sale. Service fees are recognized as services are rendered. Grant revenues from funding agencies are recognized over the contract terms with the funding agencies.

Uncertain Tax Positions

In July 2006, the FASB issued a new standard related to Accounting for *Uncertainty in Income Taxes*, now codified as ASC Topic 740. ASC Topic 740 seeks to reduce the significant diversity in practice associated with financial statement recognition and measurement in accounting for income taxes and prescribes the recognition threshold and measurement attribute for disclosures of tax positions previously taken or expected to be taken on an income tax return. Not-for-profit entities are also within the scope of ASC Topic 740. An entity must consider whether it has engaged in activities that jeopardize its current tax exempt status with the Internal Revenue Service. Furthermore, an entity must determine whether it has any unrelated business income, which may be subject to federal and state income taxes. Goodwill adopted the provisions of ASC Topic 740 effective October 1, 2009, and, accordingly, analyzed its filing positions in the federal and state jurisdictions where it is required to file income tax returns, as well as all open tax years in these jurisdictions. Goodwill has also elected to retain its existing accounting policy with respect to the treatment of interest and penalties attributable to income taxes, and continues to reflect any charges for such, to the extent they arise, as a component of its management and general expenses. The adoption of ASC Topic 740 had no significant impact on Goodwill's consolidated financial statements.

Income Taxes

Goodwill is generally exempt from federal income tax pursuant to sections 501(c)(3) and 501(c)(2) of the Internal Revenue Code, respectively, except that certain activities could potentially be subject to tax on unrelated business income. No income taxes are reported in the accompanying consolidated financial statements.

Goodwill has evaluated the provisions of ASC Topic 740, *Accounting for Uncertainty in Income Taxes*. The evaluation was performed for the years 2007 through 2010, the years which remain subject to examination by major tax jurisdictions as of September 30, 2010. Goodwill concluded that there are no significant uncertain tax positions requiring recognition in accompanying consolidated financial statements. Goodwill does not expect the total amount of unrecognized tax benefits ("UTB") (e.g. tax deductions, exclusions, or credits claimed or expected to be claimed) to significantly increase or decrease in the next twelve months. Goodwill does not have any amounts accrued for interest and penalties related to UTBs at September 30, 2010, and it is not aware of any claims for such amounts by federal or state income tax authorities.

Functional Expenses

Goodwill allocates certain operating expenses on a functional basis among its various programs and support services. Expenses that can be identified with a specific program and support service are allocated directly according to their natural expenditure classification. Other expenses that are common to several functions are allocated using various statistical bases.

Subsequent Events

In preparing the accompanying consolidated financial statements, management has evaluated, for potential recognition or disclosure, significant events or transactions that occurred during the period subsequent to September 30, 2010, the most recent consolidated statement of financial position presented herein, through December 29, 2010, the date these consolidated financial statements were available to be issued. No significant such events or transactions were identified.

Reclassifications

Certain amounts as reported in the 2009 consolidated financial statements have been reclassified to conform with the 2010 presentation.

2. SUPPLEMENTAL CASH FLOWS INFORMATION

Cash paid for interest amounted to \$241,051 and \$242,318 during the years ended September 30, 2010 and 2009, respectively.

3. RELATED PARTY TRANSACTIONS

Goodwill established an agreement with GW Services of Northern Michigan, Inc. ("GWS"), a related party (by virtue of common management) to provide management services on behalf of GWS. These services include management of GWS employees and maintenance of financial records. In return for these services, Goodwill received management fees from GWS in the amount of \$39,000 and \$37,000 for the years ended September 30, 2010 and 2009, respectively. These management fees are included in program service fees in the accompanying consolidated statements of activities.

4. INVESTMENT SECURITIES

All of Goodwill's investments are held through an outside financial manager. The financial manager is authorized to execute investment transactions to attempt to achieve the investment objectives established by Goodwill.

Investments are stated at fair value and consist of mutual funds. Fair values are summarized as follows at September 30:

5. FAIR VALUE

Goodwill utilizes fair value measurements to record fair value adjustments to its donated inventory, investments and interest rate swap, and to determine fair value disclosures. These assets and liabilities are recorded at fair value on a recurring basis.

Fair Value Hierarchy

The Financial Accounting Standards Board Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy under FASB ASC Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that Goodwill has the ability to access.

GOODWILL INDUSTRIES OF NORTHERN MICHIGAN, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at September 30, 2010.

Mutual funds: Shares held in mutual funds are valued at the net asset value ("NAV") of shares held by Goodwill at year end. The NAV is based on the value of the underlying assets owned by Goodwill, minus its liabilities then divided by the number of shares outstanding.

Inventory: Goodwill receives donated goods which are recorded at fair value which is determined by a calculation which values donated materials using a method which estimates inventory based on factors such as net sales, inventory turnover and program-related costs incurred for preparing the inventory for sale.

Interest rate swap: The Goodwill's interest rate swap liability is stated at the current market price of the swap at September 30, 2010, as provided by a third party.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Goodwill believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

10. LONG-TERM DEBT AND INTEREST RATE SWAP

Long-term debt consists of the following obligations at September 30:

	2010	2009
Bond issue through Michigan Strategic Fund, requiring semi-annual redemptions of \$45,000 to \$105,000 through date of maturity due on April 1 and October 1, with interest charge at the floating LIBOR rate (3.07% effective rate at September 30, 2010); secured by a letter of credit; matures October 1, 2027.	\$2,455,000	\$2,535,000
Real estate mortgage payable to a bank, requiring monthly installments of \$3,326 including interest charged at 6.816%; secured by real estate; a balloon payment is due August 6, 2012.	13,556	51,130

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Scheduled principal maturities of long-term debt for each of the five years succeeding September 30, 2010, and thereafter are summarized as follows:

<u>Year</u>	<u>Amount</u>
2011	\$ 110,796
2012	97,243
2013	107,243
2014	107,243
2015	107,243
Thereafter	<u>2,020,668</u>
Total	<u>\$ 2,550,436</u>

On October 1, 2007, Goodwill entered into a 20 year forward-looking basis interest rate swap agreement for an original amount of \$2,000,000 (notional amount of \$1,852,830 at September 30, 2010). The intention of the swap was to effectively change the variable interest rate on variable rate Michigan Strategic Fund debt to a fixed rate. The effective date of the swap agreement is November 1, 2007; the stated maturity date is October 1, 2017.

The swap was issued at market terms so that it had no fair value at its inception. The carrying amount of the swap has been adjusted to its fair value at the end of each subsequent year which, because of changes in the forecasted levels of the prime interest rate, resulted in a liability for the fair value of the future net payments forecasted under the swap.

11. TEMPORARILY RESTRICTED AND BOARD DESIGNATED NET ASSETS

Temporarily restricted net assets are available for the following purposes as of September 30, 2009:

Food Rescue	\$ 76,787
Housing First	24,966
Holiday Needs	15,000
Cooler purchase	19,500
Contribution for 2010 operations	<u>5,000</u>
Total temporarily restricted net assets	<u>\$ 141,253</u>

The Board of Directors has designated \$1,400,000 of unrestricted net assets for program expansion as of September 30, 2010 and 2009.

12. RETIREMENT PLAN

Goodwill maintains a deferred compensation plan qualified under Section 401(k) of the Internal Revenue Code covering all full time employees who have reached the age of 21 and have completed 90 days of service. Under this plan, eligible employees are permitted to contribute up to the maximum percentage allowable of their gross compensation into the retirement plan as determined by the Internal Revenue Code. During fiscal 2010 and 2009, Goodwill made a discretionary match at a rate of 75% of the employee's percentage deferral up to a maximum of 3%. Goodwill contributions to the plan amounted to \$56,597 and \$62,501 for the years ended September 30, 2010 and 2009, respectively.

13. LEASE COMMITMENTS

Goodwill leases a building from an unrelated third party under an operating agreement that requires monthly rental payments of \$4,973 through February 2012. Commencing March of 2012, monthly rental payments increase by 3% to \$5,098 through February 2017.

Goodwill leases a building from an unrelated third party under a 15 year lease which commenced October 1, 2008. This lease requires monthly payments of \$14,013 for the first five years, \$16,127 for the next 5 years and \$18,438 for the last five years.

Goodwill leases a building from an unrelated third party under a 10 year lease which commenced in September 2010. This lease requires monthly payments of \$9,545.

Goodwill entered into a 6 year truck lease which commenced on February 2, 2009 and expires on February 28, 2015. This lease requires monthly payments of \$1,247.

Total lease expense amounted to \$295,831 and \$279,779 for the years ended September 30, 2010 and 2009, respectively.

As of September 30, 2010 future minimum lease payments required under the operating leases that have an initial or remaining non-cancellable lease term in excess of one year are summarized as follows:

<u>Year</u>	<u>Amount</u>
2011	\$ 357,336

**INDEPENDENT AUDITORS' REPORT
ON SUPPLEMENTARY INFORMATION**

December 29, 2010

Board of Directors
Goodwill Industries of Northern
Michigan, Inc. and Subsidiary
Traverse City, Michigan

Our report on our audits of the consolidated financial statements of **Goodwill Industries of Northern Michigan, Inc. and Subsidiary** appears on page 1. Those audits were made for the purpose of forming an opinion on the consolidated financial statements taken as a whole. The supplemental information as of and for the years ended September 30, 2010 and 2009 on pages 24 to 29 is presented for purposes of additional analysis and is not a required part of the basic consolidated financial statements. Such information has not been subjected to the auditing procedures applied in our audits of the consolidated financial statements and, accordingly, we express no opinion on it.
